WEB POST

To

The Principals of Affiliated Colleges of Education
Tamil Nadu Teachers Education University

Respected Sir/Madam,

Sub: TNTEU – Tamil Nadu State Council for Higher Education – Circular on
Summer Internship in Research Institutes –2025 – Reg.

Ref: Letter dated: 19.03.2025 received from the Vice Chairman, Tamil Nadu
State Council for Higher Education, Chennai - 600005.

As per the reference cited above, the Vice Chairman of Tamil Nadu State Council for Higher Education has stated that the premier national level research institutes have announced summer internships for Undergraduate Science & Post Graduate Science students that provide a unique opportunity to engage in short-term research training at prestigious research institutions. These summer school programs serve as a gateway to research, allowing students to take their first steps into the world of scientific inquiry under the guidance of eminent scientists and researchers.

Further, he also stated that most of these summer schools are residential programs, ensuring that students can fully engage in the research environment without financial constraints. Additionally, many of these programs are offered at no cost or with minimal fees, making them accessible to students from diverse backgrounds.

Hence, the Principals of all Affiliated Colleges of Education are instructed to communicate the above said summer internship programs to the students of their respective colleges.

ls.

Tamil Nadu State Council for Higher Education **Circular on Summer Internship in Research Institutes - 2025**

The Tamil Nadu State Council for Higher Education (TANSCHÉ) would like to bring to your notice that premier national level research institutes have announced summer internships for Undergraduate Science & Post Graduate Science students that provide a unique opportunity to engage in short-term research training at prestigious research institutions. These summer school programs serve as a gateway to research, allowing students to take their first steps into the world of scientific inquiry under the guidance of eminent scientists and researchers.

Through these internships, students will gain first-hand exposure to cutting-edge research happening across various disciplines. They will have the opportunity to interact with leading scientists, work in state-of-the-art laboratories, and immerse themselves in a research-driven academic environment. This experience will not only introduce them to advanced research methodologies but will also help them develop critical thinking skills necessary for solving complex scientific problems.

Most of these summer schools are residential programs, ensuring that students can fully engage in the research environment without financial constraints. Additionally, many of these programs are offered at no cost or with minimal fees, making them accessible to students from diverse backgrounds.

The following research institutions are offering short-term training programs for the summer of 2025. Students are asked to make full use of the opportunity. Principals and HoDs are asked to display the message on the notice board without fail and circulate it in all the groups.

The colleges are asked to submit the number of students who applied and were selected to TANSCHÉ by April 30th.
